

A visit to Royal Cornwall Museum

This is the museum.

You will see lots of different things here.

You can use the steps or the ramp to go inside.

This is where we buy our tickets.

It is also the shop.

Sometimes you can hear and smell cooking from the café.

**This is the way in to the galleries.
You can see lots of different things in here.**

You can see: Minerals and rocks

Old stuff

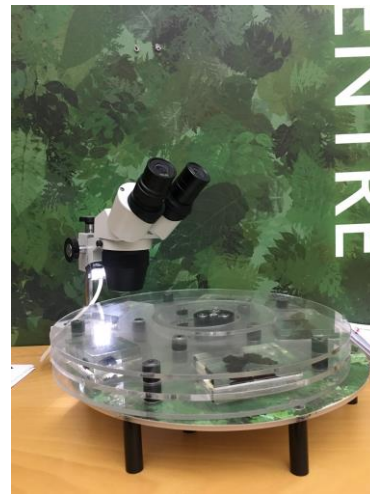

Natural things

Paintings

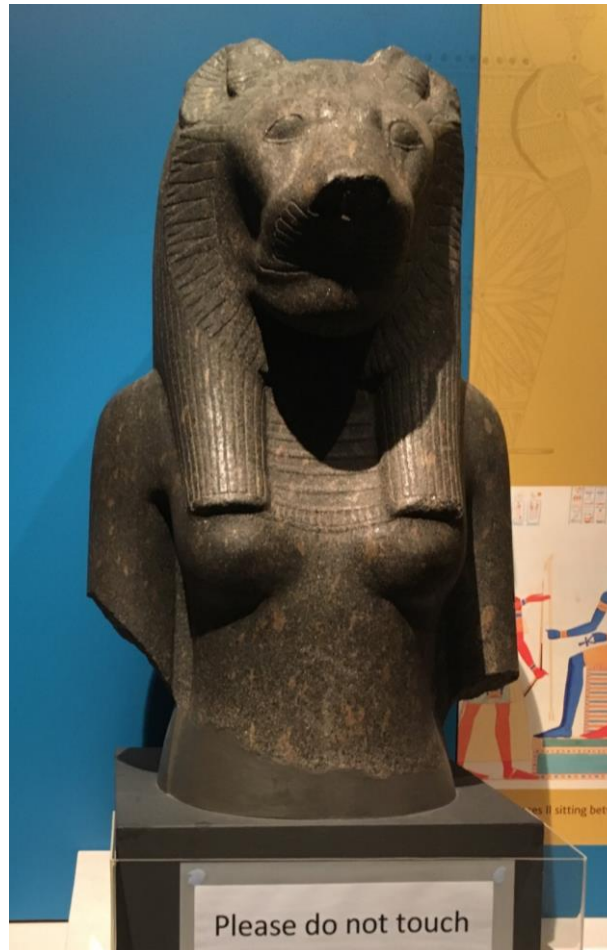

There are lots of things to see and do.
You can touch some things, dress up and make things.

If you can't touch something, it will have a sign or be behind glass.

If you don't know, ask a member of staff.

Some areas are dark and some have recorded voices.

You might like some places more than others – that's ok!

If you need some time out, there is a nice relaxing room next to the shop.

You can ask anyone who works here if you have questions – you don't need to be quiet but try not to shout.

There are toilets on the ground floor and upstairs.

The hand-driers are turned off so it is quieter.

We hope you enjoy your visit – museums are fun!
